Michael Ikese Emmanuel

Software Engineer & Programmer | Project Manager in Training

emmanlemichel2019@gmail.com | +234 816 034 5977 | github.com/miikese
Nigeria | Open to remote opportunities, collaboration, and on-the-job learning

PROFILE

Software engineer based in Nigeria, building practical applications with Go, Python and TypeScript. Background in Civil Engineering Technology; developing project management skills alongside software studies. Open to remote work, mentorship and collaboration.

TECHNICAL SKILLS & PROFESSIONAL DEVELOPMENT

Programming & interfaces: Go, Python, JavaScript, TypeScript, HTML, CSS, React, Tailwind CSS
Backend & delivery: net/http, html/template, SQLite, WebSocket, JSON, Git, Linux, Bash, unit testing
Management training: Requirements, task planning, prioritization, risk tracking, stakeholder communication, progress reporting, Agile fundamentals

SELECTED PROJECTS

Marvellous Motors - Development collaborator

Go | SQLite | HTML, CSS, JavaScript | github.com/mordecai12-cool/Marvellous-motor2
Collaborated with project owner Otiti Mordecai Marvellous on customer accounts, inventory, delivery pricing and administrator-reviewed orders. Bank-transfer evidence requires staff review.

Benue Street Locator

React | TypeScript | Leaflet | SQLite | github.com/miikese/benue-street-locator
Built a mapping MVP with predictive local search, street and satellite views, source-labelled location references and reviewed contributions. Directory coverage remains incomplete.

MindGrow

React | TypeScript | Blockly | SQLite | github.com/miikese/mindgrow
Developed a learning MVP with 13 playable activities, 30 introductory lessons, visual coding and private learner progress. Python and Go lessons use read-and-reason exercises.

EDUCATION

Software Development Programme

LEEF Centre, Otukpo | Present
Project-based Go and Python curriculum covering command-line tools, HTTP services, and practical software development.

National Diploma in Civil Engineering Technology

Federal Polytechnic, Nasarawa
