

Michael Ikese Emmanuel

Software Engineer & Programmer | Project Manager in Training

emmanlemichel2019@gmail.com | +234 816 034 5977 | github.com/miikese

Nigeria | Open to remote opportunities, collaboration, and on-the-job learning

PROFILE

Software engineer based in Nigeria, building practical applications with Go, Python, and TypeScript. Background includes a National Diploma in Civil Engineering Technology. Developing project management skills alongside software studies, with an interest in secure software design. Open to work, mentorship, and learning a new stack.

TECHNICAL SKILLS & PROFESSIONAL DEVELOPMENT

Programming & interfaces: Go, Python, JavaScript, TypeScript, HTML, CSS, React, Tailwind CSS
Backend & delivery: net/http, html/template, SQLite, WebSocket, JSON, Git, Linux, Bash, unit testing
Management training: Requirements, task planning, prioritization, risk tracking, stakeholder communication, progress reporting, Agile fundamentals

SELECTED PROJECTS

Global Browser

[Go](#) | [Chromium](#) | [WebSocket](#) | [SQLite](#) | [Linux](#) | [Private source](#)

Built a working browser-platform MVP with isolated Chromium sessions and a web viewer. Includes authentication, account roles, session quotas, persistent account data, destination checks, and session cleanup.

Smile Learning

[React](#) | [TypeScript](#) | [Vite](#) | [Tailwind CSS](#) | github.com/miikese/past-quest-solver

Developed a responsive interface for exploring past exam questions and answers. Organized reusable question cards, subject views, and search and filtering controls around static and mock study data.

Campus Resource Manager

[Python](#) | [JSON](#) | [unittest](#) | [Private source](#)

Implemented a menu-driven campus inventory application with borrowing, returns, search, and reports. Validates requests before changing records; includes JSON persistence, demonstrations, and regression tests.

EDUCATION

Software Development Programme

[LEEF Centre, Otukpo](#) | Present

Project-based Go and Python curriculum covering command-line tools, HTTP services, and practical software development.

National Diploma in Civil Engineering Technology

[Federal Polytechnic, Nasarawa](#)
